

# **NASA Office of Inspector General**

## **Open Recommendations as of August 17, 2020**

---

The National Aeronautics and Space Administration (NASA) Office of the Inspector General (OIG) makes recommendations to improve economy, efficiency, and effectiveness and to identify waste and mismanagement in NASA programs, projects, operations, and contractor activities. This report contains information about 172 recommendations that remained open as of August 17, 2020. Although NASA may have already taken steps to implement these recommendations, a recommendation is not considered closed until it has been fully implemented. Further, the status of open recommendations is subject to change as NASA continues its efforts to implement them and we review those efforts. Therefore, some recommendations identified as open in this report may have subsequently been closed.

**NASA OFFICE OF THE INSPECTOR GENERAL – OPEN RECOMMENDATIONS as of August 17, 2020**

Row no.	Issue Date	Report Title	Report no.	Rec no.	Recommendation	Responsible Office
1	5/15/15	NASA's Compliance with the Improper Payments Information Act for FY14	IG-15-015	5	Include cost-type contract payments in the Agency's recapture audit efforts. If NASA determines this proposal is not cost-effective, the CFO should document its justification for excluding these payments, including demonstrating that costs associated with recovering the funds are projected to be greater than the amount recovered.	Chief Financial Officer
2	5/14/18	NASA's Compliance with the Improper Payments Information Act for FY17	IG-18-017	1	Implement a procedure to use information regarding known improper payments, including the latest available data used for payment recapture reporting, when performing the annual risk assessment.	Chief Financial Officer
3	5/14/18	NASA's Compliance with the Improper Payments Information Act for FY17	IG-18-017	3	Develop a process for tracking overpayments identified and subsequently recovered through reductions in future billings on existing contracts such as contract credits.	Chief Financial Officer
4	6/3/19	NASA's Compliance with the Improper Payments Information Act for FY18	IG-19-020	1	Revise existing policies and procedures for reporting overpayments identified and recaptured from sources outside of the payment recapture audit by documenting the processes developed to gather, track, and report improper payments recaptured through credits on future billings and sustained questioned direct costs from post-award audits.	Chief Financial Officer
5	6/3/19	NASA's Compliance with the Improper Payments Information Act for FY18	IG-19-020	2	Provide training to those organizations or individuals responsible for reporting overpayments from future billing credits and sustained questioned direct costs from post-award audits to ensure they are aware of NASA's reporting requirements and their responsibility for tracking the information and communicating it to OCFO, including specific details of the information to be reported and the format it should be reported.	Chief Financial Officer
6	11/15/19	Audit of NASA's FY19 Financial Statements	IG-20-006	1	Improve the patch and vulnerability management program.	Chief Information Officer
7	11/15/19	Audit of NASA's FY19 Financial Statements	IG-20-006	2	Eliminate configuration weaknesses.	Chief Information Officer
8	11/15/19	Audit of NASA's FY19 Financial Statements	IG-20-006	3	Improve technical controls, including controls that monitor and control communications at the boundary of information systems.	Chief Information Officer
9	11/15/19	Audit of NASA's FY19 Financial Statements	IG-20-006	4	Improve the scope and extent of segregation of duties monitoring controls.	Chief Information Officer
10	11/15/19	Audit of NASA's FY19 Financial Statements	IG-20-006	5	Improve user administration controls, specifically around temporary elevated access and user access recertification.	Chief Information Officer
11	11/15/19	Audit of NASA's FY19 Financial Statements	IG-20-006	6	Utilize available layers of application security controls to enhance the existing defense in depth approach.	Chief Information Officer
12	11/15/19	Audit of NASA's FY19 Financial Statements	IG-20-006	7	Improve the scope and extent of financial system audit logging and review controls.	Chief Information Officer

Row no.	Issue Date	Report Title	Report no.	Rec no.	Recommendation	Responsible Office
13	11/7/19	Audit of NASA's Compliance with the Digital Accountability and Transparency Act for FY 2019	IG-20-004	2	Incorporate a procedure into the existing Verification and Validation process to verify that procurement data is entered into FPDS-NG within three business days after contract award.	Procurement
14	11/7/19	Audit of NASA's Compliance with the Digital Accountability and Transparency Act for FY 2019	IG-20-004	5	Incorporate the results of this audit as detailed in this report and specifically identified according to data elements in Appendixes B and C when executing the Agency's Data Quality Plan and determining high risk control areas in FY 2020.	Procurement
15	6/25/20	Review of NASA's Information Security Program under the Federal Information Security Modernization for FY19 Evaluation	IG-20-017	1	Ensure that the information system oversight process identifies delinquent control risk assessments and initiates timely corrective action to ensure that security controls are reviewed and tested in conformance with federal and Agency requirements.	Chief Information Officer
16	6/25/20	Review of NASA's Information Security Program under the Federal Information Security Modernization for FY19 Evaluation	IG-20-017	2	Implement a policy to enforce the Agency's requirement that RISCS be used as the main repository for all NASA SSPs and supporting documentation, including updated contingency plans, and that it accurately reflects the most current security state of NASA systems.	Chief Information Officer
17	6/25/20	Review of NASA's Information Security Program under the Federal Information Security Modernization for FY19 Evaluation	IG-20-017	3	Perform an assessment to evaluate the feasibility of modifying RISCS to ensure that required data fields, system inventory sections, and other supporting documentation required for the creation or modification of an SSP are completed before a system can be authorized to operate.	Chief Information Officer
18	6/25/20	Review of NASA's Information Security Program under the Federal Information Security Modernization for FY19 Evaluation	IG-20-017	4	Update the current training for system owners and system assessment and authorization staff that covers the requirements for maintaining system security plans and supporting plan documentation in RISCS, as well as RISCS's data protection capabilities to keep that data secure.	Chief Information Officer
19	6/25/20	Review of NASA's Information Security Program under the Federal Information Security Modernization for FY19 Evaluation	IG-20-017	5	Issue clarifying policy guidance to ensure that information security controls for all active NASA information systems that are categorized as "other than satisfied" are properly supported by either a POA&M or Risk-Based Decision document and track exceptions in Agency-wide monitoring tools.	Chief Information Officer
20	6/25/20	Review of NASA's Information Security Program under the Federal Information Security Modernization for FY19 Evaluation	IG-20-017	6	Implement the necessary controls for the management of the hybrid common controls to include assessing control effectiveness and developing a POA&M or Risk-Based Decision document for every control assessed as other than satisfied.	Chief Information Officer

Row no.	Issue Date	Report Title	Report no.	Rec no.	Recommendation	Responsible Office
21	6/25/20	Review of NASA's Information Security Program under the Federal Information Security Modernization for FY19 Evaluation	IG-20-017	7	Issue clarifying policy guidance that the Agency's system authorizing officials should ensure that all active information systems operated for the benefit of NASA, either by the Agency or other organizations, are covered by an approved contingency plan, when required.	Chief Information Officer
22	6/25/20	Review of NASA's Information Security Program under the Federal Information Security Modernization for FY19 Evaluation	IG-20-017	8	Issue clarifying policy guidance that the Agency's system authorizing officials should implement a formal review process to ensure that contingency plans for all applicable active information systems are reviewed on an annual basis to ensure they accurately reflect system requirements, procedures, organizational structure, and policies.	Chief Information Officer
23	6/25/20	Review of NASA's Information Security Program under the Federal Information Security Modernization for FY19 Evaluation	IG-20-017	9	Develop and implement an effective process to ensure that all IT security handbooks and other IT governance documents are reviewed and updated at least annually in accordance with NASA requirements.	Chief Information Officer
24	5/15/20	NASA's Compliance with the Improper Payments Information Act for FY19	IG-20-016	1	Complete steps outlined in the OMB guidance for when an agency is not compliant with IPIA for one fiscal year. Non-compliant agencies must submit a plan to Congress and OMB describing the actions that the agency will take to become compliant.	Chief Financial Officer
25	5/15/20	NASA's Compliance with the Improper Payments Information Act for FY19	IG-20-016	2	In accordance with OMB guidance, obtain a statistically valid estimate of the annual amount of improper payments in the SLS program for reporting in the FY 2020 AFR, and complete the associated required reporting.	Chief Financial Officer
26	5/15/20	NASA's Compliance with the Improper Payments Information Act for FY19	IG-20-016	3	Ensure that all risk factors are assigned risk ratings appropriately based on the supporting documentation in the risk assessment.	Chief Financial Officer
27	5/15/20	NASA's Compliance with the Improper Payments Information Act for FY19	IG-20-016	4	Change the timing of the Improper Payments Data Call so the results are available in time to consider for the improper payment risk assessment.	Chief Financial Officer
28	8/11/20	Limited Quality Control Review of FY18 Audit of Blue Marble Space Performed by Squar Milner LLP	IG-20-019	1	We recommended Blue Marble Space discontinue the practice of recording a grant award as cash in its general ledger when it receives the grant award letter from the issuing federal agency and when cash remains in PMS.	Non-NASA
29	8/11/20	Limited Quality Control Review of FY18 Audit of Blue Marble Space Performed by Squar Milner LLP	IG-20-019	2	We recommended Blue Marble Space investigate the impact of retroactively applying the above change to previous fiscal years and either restate its FY 2018 financial statements or post adjustments to the FY 2019 beginning balances of affected accounts to correct the errors and disclose the effect of the corrections on each line item in the financial statements and the cumulative effect of the change on net assets, if any.	Non-NASA

Row no.	Issue Date	Report Title	Report no.	Rec no.	Recommendation	Responsible Office
30	8/11/20	Limited Quality Control Review of FY18 Audit of Blue Marble Space Performed by Squar Milner LLP	IG-20-019	3	We recommended Squar Milner audit the restated FY 2018 financial statements and provide an in-relation-to opinion over the SEFA at no charge to Blue Marble Space.	Non-NASA
31	8/11/20	Limited Quality Control Review of FY18 Audit of Blue Marble Space Performed by Squar Milner LLP	IG-20-019	4	We recommended Squar Milner Follow AU-C 560 and assess whether Blue Marble Space management took timely and appropriate steps to ensure that anyone in receipt of its audited FY 2018 financial statements is informed that those statements are not to be relied upon, as well as the related reasons.	Non-NASA
32	8/11/20	Limited Quality Control Review of FY18 Audit of Blue Marble Space Performed by Squar Milner LLP	IG-20-019	5	We suggested Squar Milner and Blue Marble Space require applicable staff to receive training on the single audit reporting function and Uniform Guidance requirements, including the preparation and review of the SEFA and DCF.	Non-NASA
33	8/11/20	Limited Quality Control Review of FY18 Audit of Blue Marble Space Performed by Squar Milner LLP	IG-20-019	6	We suggested Squar Milner and Blue Marble Space develop quality control procedures that include improved management oversight of the preparation of the SEFA and DCF to include reviews for sufficiency and accuracy.	Non-NASA
34	8/11/20	Limited Quality Control Review of FY18 Audit of Blue Marble Space Performed by Squar Milner LLP	IG-20-019	7	We suggested Squar Milner and Blue Marble Space utilize the AICPA Governmental Audit Quality Center's resources of practice aids for preparing and reviewing the SEFA.	Non-NASA
35	8/11/20	Limited Quality Control Review of FY18 Audit of Blue Marble Space Performed by Squar Milner LLP	IG-20-019	8	We recommended Blue Marble Space coordinate and plan future single audits to be completed in time so the required reporting package and DCF is filed by the required due date.	Non-NASA
36	8/11/20	Limited Quality Control Review of FY18 Audit of Blue Marble Space Performed by Squar Milner LLP	IG-20-019	9	We recommended Squar Milner require all levels of staff (partner, manager, and all other personnel) assigned to single audit engagements receive annual training on single audits to include the reporting, audit documentation, major program determination, risk assessment, and compliance testing processes and requirements.	Non-NASA
37	8/11/20	Limited Quality Control Review of FY18 Audit of Blue Marble Space Performed by Squar Milner LLP	IG-20-019	10	We recommended Squar Milner utilize the AICPA Audit Guide to ensure that its audits are conducted and reports are prepared in compliance with generally accepted auditing standards and GAGAS.	Non-NASA
38	8/11/20	Limited Quality Control Review of FY18 Audit of Blue Marble Space Performed by Squar Milner LLP	IG-20-019	11	We recommended Squar Milner document its rationale for each compliance requirement that is deemed not direct or material to the major program tested.	Non-NASA
39	2/8/17	Audit of Industrial Control System Security over NASA's Critical Infrastructure	IG-17-011	3	Ensure OCIO and OSI representatives are included in functional reviews of NASA's critical infrastructure assets and facility security assessments so that cyber and facility interdependencies are addressed appropriately.	Office of the Administrator

Row no.	Issue Date	Report Title	Report no.	Rec no.	Recommendation	Responsible Office
40	2/8/17	Audit of Industrial Control System Security over NASA's Critical Infrastructure	IG-17-011	4	Coordinate the development of a methodology for the identification and protection of interdependencies (either within the facility security assessment or facility security level designation process).	Office of the Administrator
41	2/8/17	Audit of Industrial Control System Security over NASA's Critical Infrastructure	IG-17-011	5	Develop security policy based on NIST Special Publication (SP) 800-53, Revision 4, and NIST SP 800-82 guidance for managing the protection of OT within the mission and institutional directorates.	Office of the Administrator
42	5/17/17	Audit of the Construction of Test Stands 4693 and 4697 at Marshall Space Flight Center	IG-17-021	1	Perform a comprehensive review of Program-funded construction projects to ensure adequate analysis, including all life cycle costs, is completed prior to project initiation.	Strategic Infrastructure
43	5/17/17	Audit of the Construction of Test Stands 4693 and 4697 at Marshall Space Flight Center	IG-17-021	2	Develop additional construction project guidance for establishing unallocated construction reserves for program-direct construction facility projects to better account for significant expected risks.	Strategic Infrastructure
44	5/17/17	Audit of the Construction of Test Stands 4693 and 4697 at Marshall Space Flight Center	IG-17-021	3	Ensure facility needs, such as construction of new facilities and/or modification of existing facilities, are appropriately included in program planning and scheduling and that testing requirements are adequately understood prior to committing the Agency to construction or modification of test facilities.	Human Exploration and Operations
45	5/24/18	Audit of NASA's Information Technology Supply Chain Risk Management Efforts	IG-18-019	2	Ensure NASA's assessed and cleared listing (ACL) is updated weekly and that it contains a selection of cleared IT and communications products and services sufficient to meet Agency needs.	Chief Information Officer
46	5/24/18	Audit of NASA's Information Technology Supply Chain Risk Management Efforts	IG-18-019	7	Direct all NASA Centers, Mission Directorates, and Program/Project Offices to review and strengthen their current supply chain risk management efforts to ensure only assessed and cleared IT and communications products and services enter the Agency's supply chain.	Chief Information Officer
47	5/23/18	Audit of NASA's Security Operations Center	IG-18-020	1	Develop a charter and set of authorities signed by the NASA constituent executives (including the NASA Administrator) that addresses the SOC's organizational placement, purpose, authority, and responsibilities.	Chief Information Officer
48	5/23/18	Audit of NASA's Security Operations Center	IG-18-020	2	Establish Operational Level Agreements with NASA Centers, Mission Directorates, the Communications Services Office, the End User Services Office, the Agency Applications Office, and Web Services Office to clearly define incident response roles and responsibilities, ensure data storage and sharing needs are addressed, and opportunities to leverage economies of scale are identified and acted upon in support of Agency cybersecurity goals.	Chief Information Officer
49	10/22/18	NASA's Management of Historic Property	IG-19-002	1	Develop a process to more effectively identify, validate ownership of, and coordinate within NASA and/or with other agencies on recovery of historic property.	General Counsel

Row no.	Issue Date	Report Title	Report no.	Rec no.	Recommendation	Responsible Office
50	10/22/18	NASA's Management of Historic Property	IG-19-002	2	Develop comprehensive procedures for identifying and managing heritage assets, including defining roles and responsibilities for the different NASA entities responsible for evaluating what historic items would most effectively be maintained by the Agency and considered as heritage assets	Strategic Infrastructure
51	10/22/18	NASA's Management of Historic Property	IG-19-002	3	Evaluate and justify the existing list of NASA and contractor held heritage assets to determine whether NASA is the most effective owner and what property the Agency will retain because of its historical value.	Strategic Infrastructure
52	10/22/18	NASA's Management of Historic Property	IG-19-002	5	Ensure NASA policy and procedures for using the proceeds from facilities leased under NHPA authority appropriately aligns with Agency goals to minimize excess facilities.	Strategic Infrastructure
53	10/21/19	NASA's Security Management	IG-20-001	1	Establish and implement an enterprise-level governance structure to identify, assess, and prioritize protective services risks and deficiencies, and fund applicable countermeasure(s) to mitigate or formally accept risk.	Office of Protective Services
54	10/21/19	NASA's Security Management	IG-20-001	2	Standardize and streamline the facility security assessment process across the Agency to increase efficiency and inform decision making.	Office of Protective Services
55	10/21/19	NASA's Security Management	IG-20-001	3	Research federal arrest authority (as directed in the Protective Services BSA Decision Memorandum) in conjunction with the Office of the General Counsel, formulate a unified response, and implement a consistent policy across the Agency.	Office of Protective Services
56	10/21/19	NASA's Security Management	IG-20-001	4	Evaluate Agency-wide jurisdictions to determine if it is feasible for all Centers to be under the same jurisdiction or at least to determine if individual Centers should have all of their property under the same type of jurisdiction.	Office of Protective Services
57	10/21/19	NASA's Security Management	IG-20-001	5	Coordinate with the Office of the General Counsel to standardize the carrying of firearms by NASA civil servants in an Agency-wide policy while also addressing the appropriate situations when NASA contractors may carry their government-issued weapons off NASA property.	Office of Protective Services
58	10/21/19	NASA's Security Management	IG-20-001	6	In collaboration with the Office of Safety and Mission Assurance, evaluate fire services policies and functions Agency-wide, reconcile duties and responsibilities, and determine under which office, protective services or safety and mission, these responsibilities should reside.	Office of Protective Services
59	10/21/19	NASA's Security Management	IG-20-001	7	Establish an Agency-wide policy on calculating protective services costs associated with tenant reimbursable expenses.	Office of Protective Services
60	10/21/19	NASA's Security Management	IG-20-001	8	Develop procedures that require Center protective services officials to be a stakeholder in the planning process to meet protective services requirements for existing and new tenants.	Office of Protective Services

Row no.	Issue Date	Report Title	Report no.	Rec no.	Recommendation	Responsible Office
61	3/26/19	Service Contracts	IG-19-014	1	Develop an Agency-wide standardized set of metrics for contracts that can be collected, tracked, and analyzed over time to identify efficiencies resulting from a change in contract structure.	Procurement
62	3/26/19	Service Contracts	IG-19-014	2	Require Center Procurement Offices to formally collect, track, and report data to the Headquarters Office of Procurement on these metrics at least annually.	Procurement
63	3/26/19	Service Contracts	IG-19-014	3	Develop a community of practice to analyze what contract structure changes lead to the greatest efficiencies and to share these lessons learned with the Agency's procurement community.	Procurement
64	11/2/16	NASA's Portfolio of Earth Science Missions	IG-17-003	1	Update the Architecture Plan every 5 years to align with the release of Earth Science Decadal Surveys and mid-term Surveys and account for portfolio changes.	Science
65	10/5/17	NASA's Management of Spare Parts for its Flight Projects	IG-18-001	3	Develop a standardized cataloging process for OSCAR to ensure NASA program and project officials can effectively identify and reserve compatible flight inventory.	Strategic Infrastructure
66	10/5/17	NASA's Management of Spare Parts for its Flight Projects	IG-18-001	5	Work with Center logistics officials to develop alternative approaches to ensure Centers can meet the requirement to conduct complete reviews of spare parts inventories every 5 years.	Strategic Infrastructure
67	5/6/20	Management of Low-Boom Flight Demonstrator Project	IG-20-015	1	Finalize the schedule-driven contingency plan for the community response testing and account for the resources (personnel and costs) it will require to implement.	Aeronautics Research
68	5/6/20	Management of Low-Boom Flight Demonstrator Project	IG-20-015	4	Document and provide the Joint Cost and Schedule Confidence Level (JCL) analysis approach used by LBFD to the NASA Chief Knowledge Officer to serve as a reference for future large-scale X-plane development projects.	Aeronautics Research
69	5/6/20	Management of Low-Boom Flight Demonstrator Project	IG-20-015	5	Establish a process to be used during source evaluation boards and source selections that includes direct contact with the Center EVM Working Group Representative and cognizant Defense Contract Management Agency (DCMA) office to verify all contractor proposed information related to EVM.	Chief Financial Officer
70	5/6/20	Management of Low-Boom Flight Demonstrator Project	IG-20-015	6	Establish NASA requirements for programs and projects to perform internal EVM reporting that follow the same timeline as contractor reporting 90 days after the prime contract start date but no later than Key Decision Point (KDP)- C.	Chief Financial Officer
71	5/6/20	Management of Low-Boom Flight Demonstrator Project	IG-20-015	7	Evaluate whether the monetary threshold for performing internal EVM is sufficient or additional criteria would be beneficial regarding the dollar-value of tasks related to providing Government furnished equipment (GFE) and performing in- house development work (discrete work) compared to NASA personnel performing integration, review, and management functions (level-of-effort work).	Chief Financial Officer

Row no.	Issue Date	Report Title	Report no.	Rec no.	Recommendation	Responsible Office
72	5/6/20	Management of Low-Boom Flight Demonstrator Project	IG-20-015	8	Provide information and training to contracting officers and source evaluation board members on the availability, use, and responsibilities of DCMA during source evaluation boards and source selections. Specifically, the NASA Federal Acquisition Regulation (FAR) Supplement and NASA-DCMA Memorandum of Understanding for Earned Value Management.	Procurement
73	5/7/19	NASA's Heliophysics Portfolio	IG-19-018	2	Complete implementation of 2015 NSWAP tasks in accordance with SWORM subcommittee deadlines.	Science
74	5/7/19	NASA's Heliophysics Portfolio	IG-19-018	3	Reassess HPD's capabilities and resources and update the 2014 Roadmap for implementing 2013 Decadal recommendations with expected completion dates based on the Division's updated budget and priorities over the next 5 years.	Science
75	5/7/19	NASA's Heliophysics Portfolio	IG-19-018	4	Establish a formal mechanism to increase collaboration with DOD and the commercial space industry regarding heliophysics research and space weather modeling and forecasting efforts.	Science
76	6/18/19	JPL Network Security	IG-19-022	2	Segregate shared environments connected to the network gateway for all partners accessing the JPL network and monitor partner activity when accessing the network.	NASA Management Office
77	6/18/19	JPL Network Security	IG-19-022	3	Review and update ISAs for all partners connected to the network gateway to ensure they are up-to-date and made available to the NASA OCIO.	NASA Management Office
78	6/18/19	JPL Network Security	IG-19-022	6	Clarify the division of responsibility between the JPL OCIO and system administrators for conducting routine log reviews and monitor their compliance with this requirement on a more frequent basis.	NASA Management Office
79	6/18/19	JPL Network Security	IG-19-022	8	Establish a formal, documented threat-hunting process that includes roles and responsibilities, standard processes for conducting a hunt, and metrics to track success.	NASA Management Office
80	5/29/19	Management of NASA's Europa Mission	IG-19-019	7	Consider requesting the NRC (now the National Academies of Sciences, Engineering, and Medicine) reexamine the Lander's priority under authority in the NASA Authorization Act of 2008.	Science
81	5/29/19	Management of NASA's Europa Mission	IG-19-019	9	Reassess the process of isolating key project personnel from instrument selection to balance their additional insight in integration and cost estimation while maintaining fairness in the announcement and mitigating conflicts of interest risks.	Science
82	3/19/20	Management of Ground and Flight Application Software Development	IG-20-014	2	Document and implement lessons learned regarding the process of identifying, negotiating, and implementing information technology security mitigation steps to obtain remote access and functionality with contractor laboratories.	Human Exploration and Operations

Row no.	Issue Date	Report Title	Report no.	Rec no.	Recommendation	Responsible Office
83	9/17/15	NASA's Response to Orbital's 2014 Launch Failure: Impacts on Commercial Resupply of the International Space Station	IG-15-023	7	Consider whether contract provisions relating to the boards should be revised to more closely align with NASA Mishap Investigation Board procedures (NASA Procedural Requirements 8621.1B, Chapter 4).	Human Exploration and Operations
84	3/28/16	Audit of the Spaceport Command and Control System	IG-16-015	1	Commission an independent assessment to evaluate the status of the SCCS software development effort and determine the necessary steps to reduce the risk of further cost, schedule, and performance issues, including consideration of acquiring commercial command and control software to replace some or all of the system currently under development.	Human Exploration and Operations
85	3/9/17	NASA's Management of Electromagnetic Spectrum	IG-17-012	2	Incorporate the Spectrum Guidance for NASA Small Satellite Missions into formal NASA electromagnetic spectrum policies NPD 2570.5E, NASA Electromagnetic Spectrum Management - Revalidated 9/13/16, and NPR 2570.1C, NASA Radio Frequency Electromagnetic Spectrum Management Manual.	Human Exploration and Operations
86	4/13/17	NASA's Plans for Human Exploration Beyond Low-Earth Orbit	IG-17-017	4	Include cost as a factor in NASA's Journey to Mars feasibility studies when assessing various missions and systems	Human Exploration and Operations
87	7/30/18	NASA's Efforts to Complete ISS Research to Enable Long-Duration Human Space Flight and Plans for the Station's Future Disposition	IG-18-021	3	Ensure there is a contingency plan for each exploration-enabling technology demonstration not scheduled to be fully tested by 2024, such as: a. Identification of alternate testing platforms, b. Impact to technical risk of exploration systems, and c. Impact to the technology demonstration schedule.	Human Exploration and Operations
88	7/30/18	NASA's Efforts to Complete ISS Research to Enable Long-Duration Human Space Flight and Plans for the Station's Future Disposition	IG-18-021	4	Complete all end-of-mission critical systems and open work related to nominal and contingency deorbit operations.	Human Exploration and Operations
89	7/30/18	NASA's Efforts to Complete ISS Research to Enable Long-Duration Human Space Flight and Plans for the Station's Future Disposition	IG-18-021	5	Develop options for obtaining supplemental emergency deorbit propellant support from U.S. commercial vehicles.	Human Exploration and Operations
90	4/26/18	NASA's Management of ISS Commercial Resupply Services Contracts	IG-18-016	5	Ensure the ISS Program decides by January 2020 whether to compete task orders beyond the minimum guarantee of six for each contractor through the existing IDIQ contract or through the On-Ramp clause.	Human Exploration and Operations
91	4/5/18	NASA's Management of the Goddard Institute for Space Studies and Related Activities	IG-18-015	8	To the extent practicable, implement the GAO's best practices for establishing partnerships, including the formalization of agreements that outline the roles and responsibilities of each agency in the performance and application of climate research performed at GISS.	Office of International and Interagency Relations

Row no.	Issue Date	Report Title	Report no.	Rec no.	Recommendation	Responsible Office
92	3/17/20	NASA's Management of the Mobile Launcher	IG-20-013	1	Identify immature vehicle load and interface requirements for the ML-2 project and coordinate with appropriate offices to mitigate cost and schedule risks.	Human Exploration and Operations
93	3/17/20	NASA's Management of the Mobile Launcher	IG-20-013	2	Develop a process to ensure contractor performance ratings and related award fees for the ML-2 contract are consistent with established criteria and project outcomes.	Human Exploration and Operations
94	3/17/20	NASA's Management of the Mobile Launcher	IG-20-013	3	Ensure life-cycle and milestone reviews incorporate programmatic and technical risks and are conducted with the Associate Administrator for Human Exploration and Operations Mission Directorate and other senior Agency officials.	Human Exploration and Operations
95	3/17/20	NASA's Management of the Mobile Launcher	IG-20-013	4	Require the ML-2 project to develop an ABC separate from the EGS Program.	Human Exploration and Operations
96	3/10/20	NASA's Cost Management of the Space Launch System	IG-20-012	1	Notify Congress that the SLS Program has exceeded its ABC by at least 30 percent.	Human Exploration and Operations
97	3/10/20	NASA's Cost Management of the Space Launch System	IG-20-012	2	Review HEOMD and NASA program management policies, procedures, and ABC reporting processes to provide greater visibility into current, future, and overall cost and schedule estimates for the SLS Program and other human space flight programs.	Human Exploration and Operations
98	3/10/20	NASA's Cost Management of the Space Launch System	IG-20-012	2a	Rebaselining Artemis I costs to appropriately and transparently track costs that include SLS development costs and activities tied to the first SLS launch.	Human Exploration and Operations
99	3/10/20	NASA's Cost Management of the Space Launch System	IG-20-012	2b	Establishing methodologies and processes to track and set cost commitments for Artemis II.	Human Exploration and Operations
100	3/10/20	NASA's Cost Management of the Space Launch System	IG-20-012	2c	Determining reporting and tracking procedures for setting cost and schedule commitments, and monitoring progress throughout the entire life cycle of the SLS Program (through at least 2030).	Human Exploration and Operations
101	3/10/20	NASA's Cost Management of the Space Launch System	IG-20-012	3	For new acquisitions of SLS deliverables, develop a cost accounting model that separates each deliverable into its own CLIN for tracking costs, performance, and award fees.	Human Exploration and Operations
102	3/10/20	NASA's Cost Management of the Space Launch System	IG-20-012	4	For large award fee contracts where NASA has on-site personnel, ensure they are appointed in writing and clearly assigned the task of monitoring and reporting on the performance of the contractor.	Human Exploration and Operations
103	3/10/20	NASA's Cost Management of the Space Launch System	IG-20-012	5	Conduct a thorough review of each major SLS contract's scope of work and technical requirements needed to complete the period of performance to assist in eliminating incremental contract value increases to the contract and lessen contract management burden, as in the case of the Boosters contract.	Human Exploration and Operations
104	3/19/19	NASA's Progress with Environmental Remediation Activities of the Santa Susana Field Laboratory	IG-19-013	1	Pursue all available options, administrative, legal, or political, to ensure NASA's SSFL soil cleanup is performed in an environmentally and financially responsible manner based on the intended future use of the property.	Marshall Space Flight Center

Row no.	Issue Date	Report Title	Report no.	Rec no.	Recommendation	Responsible Office
105	3/3/20	NASA's Distributed Active Archive Centers	IG-20-011	1	In conjunction with ESDIS, once NISAR and SWOT are operational and providing sufficient data, complete an independent analysis to determine the long-term financial sustainability of supporting the cloud migration and operation while also maintaining the current DAAC footprint.	Science
106	3/3/20	NASA's Distributed Active Archive Centers	IG-20-011	3	In coordination with the OCIO, and during the next security plan review cycle, ensure all applicable information types are considered during system categorization, that appropriate premises are used when determining impact levels, and that the appropriate categorization procedures are standardized across ESDIS systems.	Science
107	11/14/19	NASA's Management of Crew Transportation to the International Space Station	IG-20-005	5	Continue to ensure the purchase of future commercial space services complies with government contracting regulations.	Human Exploration and Operations
108	7/16/20	NASA's Management of the Orion Multi-Purpose Crew Vehicle Program	IG-20-018	1	Ensure total development and production contract costs currently not reported as part of the ABC baseline are included in quarterly financial status reporting to the Office of the Chief Financial Officer, OMB, and Congress.	Human Exploration and Operations
109	7/16/20	NASA's Management of the Orion Multi-Purpose Crew Vehicle Program	IG-20-018	2	To the extent practicable, adjust the production schedules for Artemis IV and V to better align with the successful demonstration of Artemis II to reduce schedule delays associated with potential rework.	Human Exploration and Operations
110	7/16/20	NASA's Management of the Orion Multi-Purpose Crew Vehicle Program	IG-20-018	3	Ensure procurement officials minimize the availability of award fees when contract modifications and value increases are the result of shortcomings in contractor performance, and require documentation of the rationale for any award fees granted.	Procurement
