

Audit of NASA's Fiscal Year 2024 Financial Statements (IG-25-001, November 15, 2024)

The NASA Office of Inspector General contracted with the independent public accounting firm Ernst & Young LLP (EY) to audit NASA's fiscal year (FY) 2024 financial statements. EY performed the audit in accordance with the Government Accountability Office's *Government Auditing Standards* and the Office of Management and Budget's Bulletin No. 24-02, *Audit Requirements for Federal Financial Statements*.

This audit resulted in a "clean" or unmodified opinion on NASA's FY 2024 financial statements. An unmodified opinion means the financial statements present fairly, in all material respects, the financial position and results of NASA's operations in conformity with U.S. generally accepted accounting principles.

EY also reported on NASA's internal control over financial reporting and compliance with laws and regulations for FY 2024. For FY 2024, EY reported no instances of significant noncompliance with applicable laws and regulations but did identify one material weakness in internal control related to financial reporting oversight.

See the Financial Section of NASA's FY 2024 Agency Financial Report for the Office of Inspector General's transmittal letter and EY's audit report. [NASA Agency Financial Reports](#)
